KNOW US BETTER

IQMCINDIA Certification Pvt. Ltd. is an independent certification body offering reliable, transparent, and value-driven certification and audit services across India and Internationally.

APSCA	ISO 9001:2015	CTPAT	Compliance
Aligned Social Compliance Audits.	Quality Management System Certification.	Security Audits.	Social, Quality, Security and Environmental Compliance Audits.

We operate with an ethical and impartial approach, ensuring our clients meet international standards, buyer requirements, and sustainability goals. Whether you are a manufacturer, exporter, service provider, IT firm, or NGO, our services are tailored to help you grow responsibly and competitively.

VISION

To be a trusted force in promoting global standards of quality, ethical accountability, and sustainable compliance enabling organizations to thrive with integrity.

MISSION

To empower organizations with credible certification and auditing services that go beyond basic compliance, driving improvement, stakeholder trust, and business value.

ISO 9001:2015 Quality Management System Certification

ISO 9001:2015 is the most widely recognized quality management standard Nationally. It helps organizations establish effective systems to ensure product and service consistency, meet customer expectations, and enhance operational performance.

Benefits include:

- Enhanced customer satisfaction
- Process efficiency and cost reduction
- Strong internal controls and accountability
- Greater market acceptance

Our Certification Process:

1. Application & Optional Gap Assessment
2. Stage 1 Audit – Review of documents, scope, and readiness
3. Stage 2 Audit – Evaluation of implementation and effectiveness
4. Certification Decision – Certificate valid for three years
5. Annual Surveillance Audits

All audits are conducted in accordance with ISO/IEC 17021-1:2015 requirements.

APSCA-Aligned Social Compliance Audits

We are aligned with APSCA (Association of Professional Social Compliance Auditors), and we conduct ethical, independent social audits based on international buyer expectations and industry frameworks.

Key areas assessed:

- Labor standards, working hours, and wages
- Health and safety practices
- Non-discrimination and fair treatment
- Freedom of association and grievance mechanisms
- Facility infrastructure, including dormitories and canteens

These audits are ideal for factories, contract manufacturers, exporters, and suppliers seeking to demonstrate social accountability and meet compliance expectations of global brands.

CTPAT (Customs Trade Partnership Against Terrorism) Audits

CTPAT is a U.S. Customs and Border Protection (CBP) initiative aimed at enhancing the security of global supply chains. We support businesses in achieving and maintaining compliance with CTPAT security criteria.

Focus areas include:

- Physical access control and perimeter security
- Container and cargo integrity
- Background checks and personnel security
- Training and awareness for staff
- Business partner verification

Our audit services help exporters and logistics providers prepare for buyer audits and qualify for global supply chain partnerships.

SERVICES

LGIW Code of Conduct Audits

(Labor Growth is Worship)

At IQMCINDIA, we believe that responsible growth is built on a foundation of ethical labor, environmental stewardship, process quality, and secure supply chains. Our LGIW (Labor Growth Is Worship) Code of Conduct Audits provide a unified framework to assess and improve practices across four critical pillars: Labor, Environment, Quality, and Security.

These audits are designed for factories, exporters, contract manufacturers, and suppliers seeking compliance with global buyer expectations, industry regulations, and ESG principles.

Scope of LGIW CoC Audits

Social & Labor Compliance

- Assessment of working hours, wages, overtime, benefits
- Prevention of child labor, forced labor, and discrimination
- Freedom of association and grievance mechanisms
- Health & safety checks, emergency preparedness, and worker welfare
- Compliance with national labor laws and buyer requirements

Environmental Compliance

- Waste management, emissions control, and pollution prevention
- Energy and water resource efficiency
- Environmental permits and legal compliance
- Environmental risk identification and mitigation
- Sustainable resource usage and conservation practices

Quality Systems Compliance

- Review of quality management procedures and product integrity
- Internal audit mechanisms and continual improvement systems
- Nonconformance handling and corrective action tracking
- Process consistency, traceability, and customer satisfaction indicators
- Alignment with ISO 9001 principles where applicable

Supply Chain Security Compliance

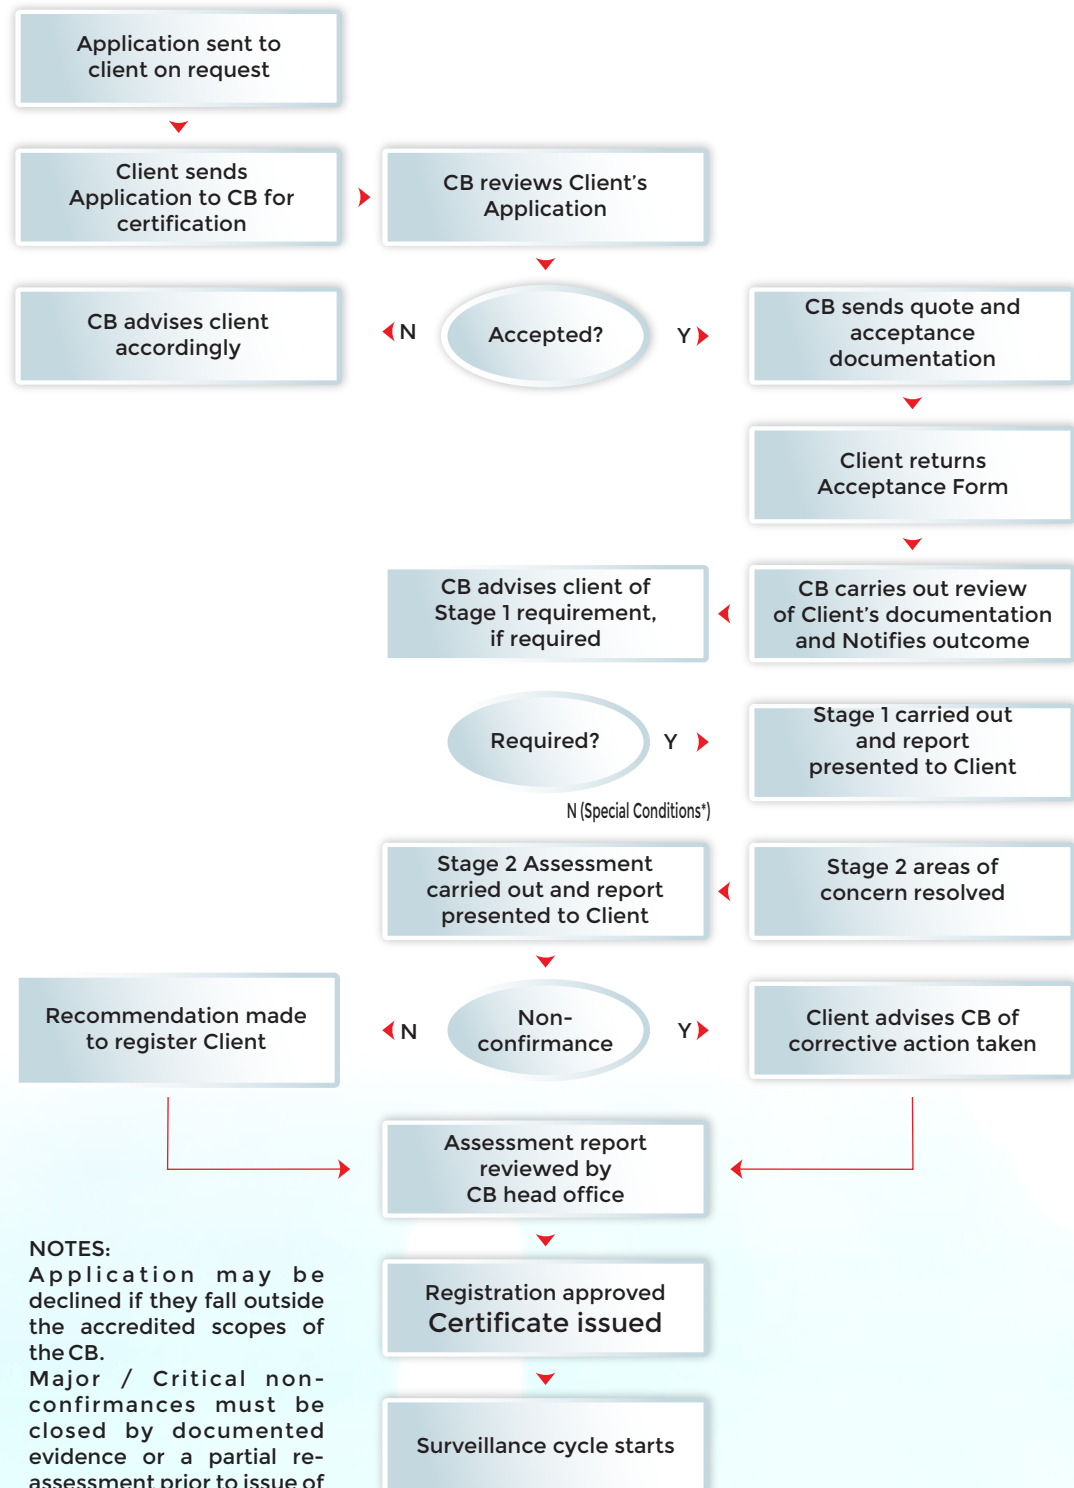

- Physical access controls, visitor management, and surveillance
- Container and cargo integrity (aligned with CTPAT expectations)
- Staff screening, awareness, and security protocols
- Facility perimeter security, shipping/receiving verification
- Supplier risk mapping and partner due diligence
